

## COVID-19 Statement

Coronavirus is impacting all communities in unprecedented ways, and whilst many workplaces are yet to feel a significant impact, it is important that we take additional steps to minimise the potential spread and impact on our employees and business operations.

Until a government shutdown of all businesses Kerr's Hire will remain open. In the event of a staff member contracting COVID-19 staff isolation will be implemented and we will contact customers and make them aware if an outbreak occurs at one of our stores.

If any of our customers or their staff contract COVID-19 that have been to one of our branches please contact us immediately.

All Kerr's Hire Staff have been provided with regular updates and information designed to limit the spread of the virus by following Government and Health Services recommendations.

We have been encouraging our staff and customers to practice good hand hygiene and good respiratory etiquette to reduce the risk of transmission.

Kerr's Hire has also made the following changes:

- Equipment is being thoroughly washed with hot pressure washers and soap.
- Non pressure washed equipment will be sprayed with disinfectant.
- Customers can request for equipment to be sprayed with disinfectant once loaded or unloaded.
- All Customers coming into the office are required to use the supplied hand sanitiser when arriving at the desk and before signing any paperwork.
- Staff have been instructed to keep as social distance where possible.

At this stage, we do not expect any drastic disruptions. Due to the uncertainty of the situation and how it will evolve over the coming weeks and months, we will keep you informed of any further developments.

Regards  
Jarrod Kerr  
Kerr's Hire
